JUDGEMENT

The test scope in this test report was defined by the customer.

According to §31 of the German Food and Feed Code (Lebensmittel- und Futtermittelgesetz, LFGB) and the European Framework-Regulation VO (EC) No. 1935/2004 food contact materials may not release substances in food or its surface in quantities that could

1. endanger human health
2. bring about an unacceptable deterioration of the composition or the organoleptic properties (smell, taste) or the appearance of food (e.g. colour)

The overall migration from plastic articles in contact with food may not exceed 10 mg/dm² packaging material, according to the European Plastics-Regulation VO (EC) No. 10/2011.

- Simulant A - below limit value
- D2-alternative simulants 95% ethanol and iso-octane - below limit value

In the scope of the analyses performed and under the above test conditions there was no indication for an objection.
